

Now is a great time to participate in your company-sponsored 401(k) plan. It can help you build financial security in retirement because your savings may grow faster than in a taxable savings account.

Consider the great advantages of participating in your 401(k) plan:

- ★ An easy way to save for retirement—your contributions are automatically deducted from your paycheck.
- ★ Pre-tax contributions and investment earnings benefit from tax-deferred growth
- ★ A way to make a difference today that can impact your financial future

To research how your 401(k) retirement plan can help you save, visit www.TA-Retirement.com and review the “It’s Payday!SM” retirement planning tool. You’ll find it by first clicking on Employees on the top menu bar, selecting Resources, and then clicking on Investment Calculators. While you’re there, be sure to check out the other tools available that may help you plan for retirement with confidence.

To review your choices and cast your vote, contact your Benefits Manager for an enrollment workbook today.
